EDUCATION

Master of Engineering, Information Systems Security
Concordia University, Montreal, Canada

Sept 2022–Apr 2024

Bachelor of Technology, Computer Science and Engineering
MIT World Peace University, Pune, India

Jul 2018–May 2022

SKILLS

Programming: Python, Java, SAS, R

Machine Learning: Pandas, NumPy, Scikit-Learn, TensorFlow

Web: HTML, CSS, JavaScript

Cloud & Infrastructure: AWS, Azure, GCP

Data Analytics & Engineering: Power BI, Tableau, Looker, Fabric, Excel, DAX, Power Apps, Snowflake, BigQuery, SQL Server, Spark, Databricks, MongoDB, Azure Data Factory, Alteryx, Power Automate, Apache Airflow, Control-M, Jenkins, Ansible, Terraform, Kafka

Generative & Agentic AI: RAG, LangChain, LangGraph, LLMOps, Prompt Engineering, Vector Databases, LangSmith, AI Agents

Version Control & Collaboration: Git, GitHub, Confluence, Jira

WORK EXPERIENCE

Data Analyst, Tata Consultancy Services (Client: Manulife), Toronto, Ontario, Canada

Jun 2025–Present

- Led **data profiling, validation, and root cause analysis** using **PySpark, SQL, and Azure Databricks**, ensuring high-quality **VOICE product datasets for analytical decision making**, improving **data completeness and consistency** by **35%**.
- Built the **VOICE Dashboard in Power BI**, integrating call, chat, and survey data to provide unified **customer experience** insights, leveraging **Gen AI** for text summarization, topic extraction, and sentiment analysis, improving **customer insights** by **45%**.
- Developed and maintained **analytical views** from the **Customer Analytics Record (CAR)** data lake to enable business intelligence and ad hoc reporting, improving data accessibility and enabling on-demand insights, reducing manual reporting time by **40%**.
- Collaborated with **Salesforce CRM** and **Amazon Connect** teams to investigate and resolve **upstream data issues** across source systems, improving data flow performance and data integrity by **30%** across **Canada, U.S, and GWAM** segments.

Data Analyst, Intact Financial Corporation, Toronto, Ontario, Canada

May 2024–Sep 2024

- Led the analysis of **operational performance** using **Python, SAS, and SQL**, uncovering insights that improved **key performance indicators (KPIs)** by up to **20%** across **Personal and Commercial Lines**.
- Developed and maintained **Power BI dashboards for workforce management**, enabling resource tracking, capacity planning, and performance monitoring, improving team **efficiency** by **25%** and reducing **scheduling conflicts** by **30%**.
- Created complex **DAX expressions** for advanced analytics and visualizations in **Power BI**, improving **trend analysis** by **25%**.
- Automated **SAS processes** with **Control-M** and **KSH scripts**, boosting efficiency by **40%** and cutting errors by **15%**.
- Maintained **version control** with **GitHub**, ensuring collaboration and code integrity across data projects.

Security Analytics Intern, Intact Financial Corporation, Toronto, Ontario, Canada

May 2023–Apr 2024

- Developed and optimized **Power BI dashboards** to transform raw data into actionable insights, leveraging **DAX measures** and **Power Query** to enhance data modeling and visualization, reducing **reporting latency** by **15%**.
- Implemented **Row-Level Security (RLS)** in **Power BI**, ensuring **role-specific data access** and reducing **access-related issues** by **30%**, ensuring **compliance** with **data governance standards**.
- Conducted **large-scale data analysis using SQL**, identifying key trends and optimizing **data workflows**, leading to a **20%** improvement in **data processing efficiency**.
- Enhanced **reporting efficiency** by **25%** through advanced **Excel formulas (VLOOKUP, INDEX-MATCH, arrays)** and **VBA macros**, **automating data analysis** and identifying **data quality gaps** from **CSPM, WAF, and CASB** tools.

Business Intelligence Developer Intern, Paytm, Pune, India

Jan 2022–Jul 2022

- Led the analysis of **customer analytics**, retrieving and analyzing **customer data** (demographics, purchase patterns, churn rates) from **GCP BigQuery** using **Python** and **SQL**, driving a **15% increase in customer engagement** through **targeted marketing strategies**.
- Developed **dashboards in Tableau**, visualizing key **customer metrics**, and saving **30 hours of manual analysis** per month, leading to improved **decision-making for marketing and product** teams.
- Developed and maintained comprehensive **documentation on Confluence**, and managed tasks on **Jira**, ensuring smooth collaboration and **progress tracking** for cross-functional teams.

Data Engineer Intern, AlgoAnalytics, Pune, India

May 2021–Dec 2021

- Led **data architecture** and flow for petabyte-scale project using **Spark, Databricks, AWS S3, Lambda, and SQS**, boosting efficiency.
- Automated **S3 archiving**, cut **storage costs** by **95%**, and optimized **revenue** with **compression/migration** solutions.
- Created **Azure Databricks** validation for **10+ pipelines**, cutting issue detection time by **70%** and saving **30 hours/week**.
- Built **monitoring dashboards in Snowflake and Tableau**, improving real-time and historical data analysis.
- Optimized **SQL queries** to cut database **query execution time** from 150 to 80 minutes and reduce **pipeline latency**.

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate (DP- 700)
- Microsoft Certified: Azure Data Fundamentals (DP- 900)
- Databricks Lakehouse Fundamentals
- Alteryx Designer Advanced Certification
